SUMMARY

Software Engineer with 2 years of experience building and enhancing full-stack web applications using .NET, Angular, React, and SQL Server. Experienced in developing RESTful APIs, implementing frontend features, integrating backend services, and working with relational databases across enterprise applications. Proven experience leading development teams for internal projects and delivering solutions from design through release

WORK EXPERIENCE

- **Experion Technologies (India) Private Limited** **April 2026 - Present**
Software Engineer
 - Developed and maintained features for a enterprise supermarket application using AngularJS, modern Angular, and .NET.
 - Developed and optimized SQL Server stored procedures, functions, and views to support data processing and application workflows.
 - Leveraged Claude AI to accelerate full-stack development, utilizing AI-driven assistance for code generation, refactoring, debugging and SQL query optimization.
- **Experion Technologies (India) Private Limited** **Oct 2024 - April 2026**
Associate Software Engineer
 - Developed .NET Web APIs using the CQRS pattern with MS SQL Server, supporting core workflows in a maritime domain web application.
 - Contributed to full-stack development using React, developing UI components and integrating .NET APIs and SQL queries.
 - Contributed to frontend development of a warehouse management web application using Angular, building data-intensive UI screens with grids and pivot-style components.
 - Integrated REST APIs, implemented client-side validations, and added unit testing for Angular components.
- **Experion Technologies (India) Private Limited** **April 2024 - Oct 2024**
Associate Software Engineer – Trainee
 - Led a development team in building an internal web application to automate remote software deployment and streamline application installation across employee systems.
 - Contributed to the end-to-end development using Angular, .NET, and SQL Server, implementing core deployment workflows and application management features.
 - Led a team to develop and deliver the organization's Learning & Development newsletter for the company website, translating Figma designs into responsive HTML and CSS and coordinating the implementation through release.
- **Python Django Intern, Imat Global** **Dec 2023 - Mar 2024**
 - Strong knowledge in Python programming language.
 - Experience with database management using Django ORM.
 - Acquired skills in HTML, CSS, Javascript, Bootstrap, Python, Django, MySQL.

PROJECTS

Software Deployment Tool

April 2024 - Oct 2024

- Developed an internal web-based tool to enable remote software installation across employee systems.
- Implemented core workflows to support application deployment and management without manual installation.
- **Technology(s) Used:** Angular, .NET, SQL Server, HTML5, CSS3

SKILLS

- **Languages:** C#, TypeScript, JavaScript, HTML5, CSS3
- **Backend:** .NET, ASP.NET Core, Web APIs, Entity Framework, CQRS
- **Frontend:** Angular, React, AngularJS
- **Databases:** Microsoft SQL Server
- **Version Control Tools:** Git, GitHub, Bitbucket
- **Design & Collaboration:** Figma, Canva

EDUCATION

B.Tech in Electronics and Biomedical Engineering

Jul 2019 - Jun 2023

Model Engineering College, Thrikkakara

Aggregate: 6.7

Higher Secondary

Jun 2017 - Mar 2019

Le Mer Public School, Thriprayar

Aggregate: 74.4%

- Specialized in Computer science.

High School

Jun 2016 - Mar 2017

Le Mer Public School, Thriprayar

Aggregate: 85.5%
